## KIRKLAND LAKE DISCOVERIES

# DISTRICT-SCALE DISCOVERY POTENTIAL

Exploring in the shadows of headframes

TSX-V: KLDC | US-OTC: KLKLF

June 2025

Historical Toburn Mine – Kirkland Lake, ON

This presentation contains certain forward-looking statements within the meaning of Canadian securities legislation (the "Forward-looking Statements"). The Forward-looking Statements"). The Forward-looking Statements relate to future events or Kirkland Lake Discoveries Corp. ("Kirkland Lake Discoveries" or "KLDC"), future performance, business prospects or opportunities. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "seek", "anticipate", "plan", "continue", "estimate", "expect", "forecast", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe", "outlook" and similar expressions) are not statements of historical fact and may be Forward-looking Statements.

Forward-looking Statements in this presentation include, but are not limited to, statements with respect to KLDC's future plans and exploration programs, including the timing of such plans and programs, and the merits of KLDC's mineral properties.

Although Kirkland Lake Discoveries believes that these Forward-looking Statements are based on reasonable assumptions, all Forward-looking Statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance, achievements, events, or circumstances of KLDC to be materially different than expressed or implied by the Forward-looking Statements. Such risks include, among others, uncertainties related to fluctuations in metal prices; uncertainties inherent in the exploration of mineral properties; risks associated with the interpretation of drilling results and other tests; changes in planned work resulting from weather, logistical, technical or other factors; the possibility that results of work will not fulfill expectations and realize the perceived potential of KLDC's mineral properties; the possibility that required permits may not be obtained in a timely manner or at all; risk of accidents, equipment breakdowns or other unanticipated difficulties or interruptions; the possibility of cost overruns or unanticipated expenses in work programs; the risk of environmental contamination or damage resulting from the exploration operations; the need to comply with environmental and governmental regulations; and the availability, or lack thereof, of capital and financing.

These Forward-looking Statements speak only as of the date of this presentation. Except as required by applicable securities laws, KLDC undertakes no obligation to update these Forward-looking Statements if management's beliefs, estimates or opinions, or other factors, should change.

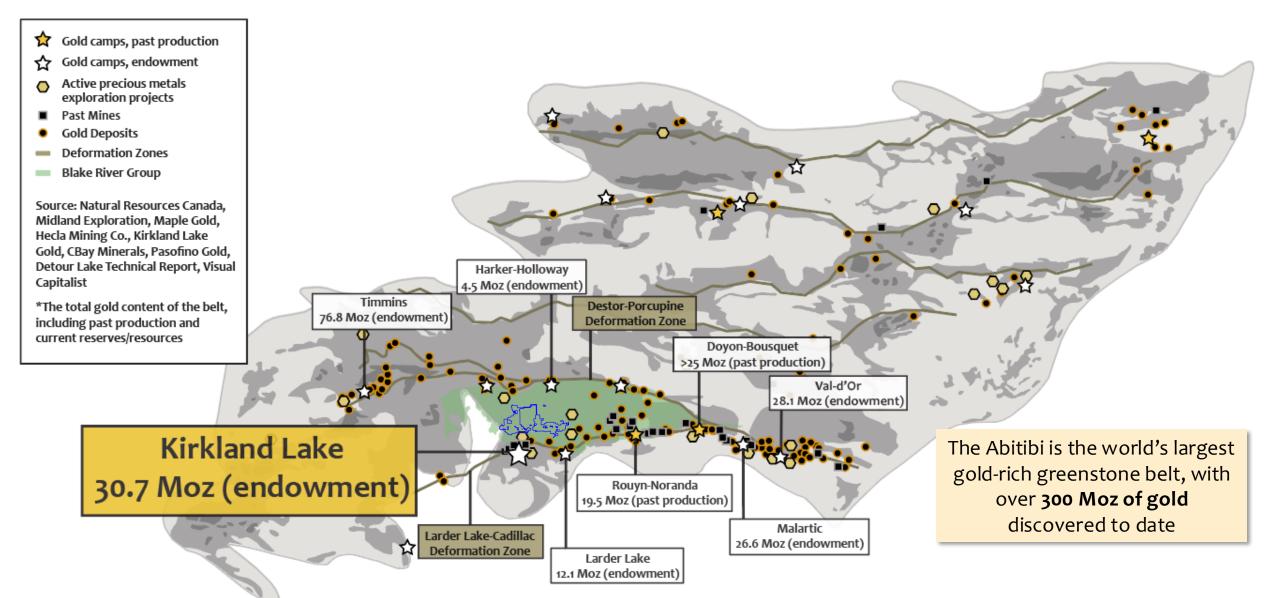

For more information on Kirkland Lake Discoveries, readers should refer to KLDC's website at www.kirklandlakediscoveries.com.

Mike Kilbourne, P. Geo., a qualified person as defined in National Instrument 43-101, has reviewed and approved the technical content of this presentation on behalf of the Company.

# LOCATION. ROCKS. SCALE. THE INGREDIENTS FOR A MAJOR DISCOVERY

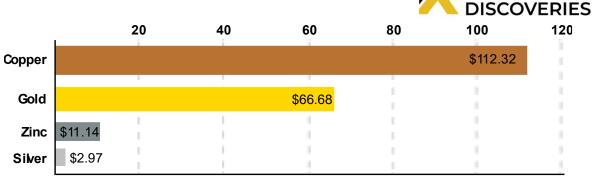

### BLAKE RIVER GROUP – ONTARIO'S SLEEPING GIANT?

Located in one of the world's most **well-known mining belts**, our property covers a significant area of geologically **promising ground**.

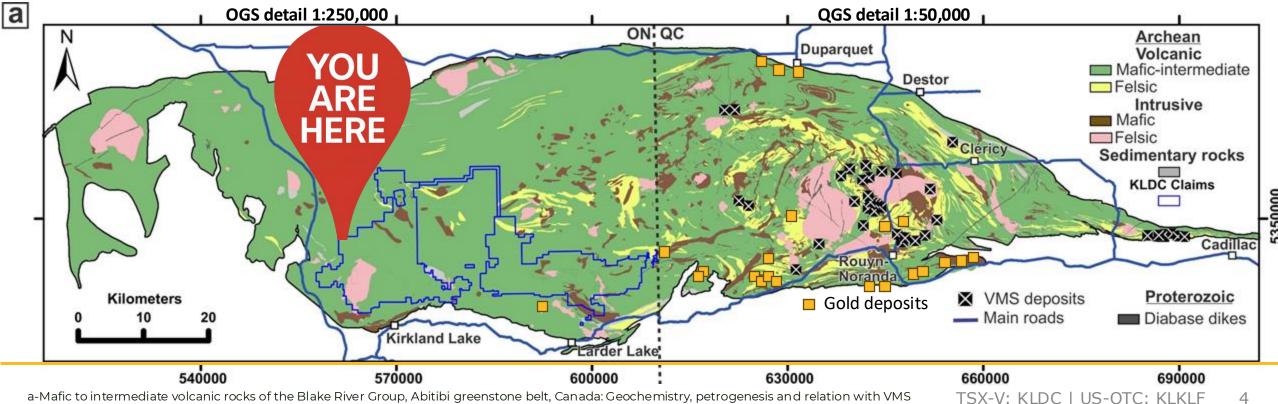

The scale of our land package allows us to apply **modern exploration** techniques across the entire property, targeting areas that have **not** been fully **explored in the past**.

Québec Blace River Group Total Production Value in \$ CDN Billion

#### MINERALIZATION PROSPECTIVITY ON KL WEST 2024 SOILS

#### Shear/Lode Gold (Purple)

Indicative of structurally controlled gold mineralization trends.

#### **VMS Potential (Green)**

Areas with significant signatures for volcanogenic massive sulfide mineralization.

#### Intrusion-Related Mineralization (Orange)

Strongly associated with the massive granitoid intrusion, which appears to play a critical role in localizing mineralization trends.

#### **GEOPHYSICAL ANOMALIES**

Winnie Lake Showing is VMS in nature, with historical drilling in 1989 encountering grades of 2.6% copper, 2.8% zinc, 17.1 g/t Ag and 1.03 g/t Au over 22.5 meters.

50 k

2 km

Soil sampling from 2024 indicates significant mineralization at the contact zone of the granite intrusion.

The **magnetic highs** around the granite intrusion indicate possible **mineralization similar to Winnie,** making these zones high-priority exploration targets and drilling.

**Magnetic highs** correlate with mineralization trends from 2024 geochemical survey KIRKLAND LAKE DISCOVERIES Mineral Occurrence **IGS Historic Drill Colts Historic Shaf** Anticlin Syncline Geophysics KLD RTP 1VD 2 km

## ANOMALY DETECTION USING AI AND HUMAN EXPERTS

Analysis of existing electromagnetic (EM) data shows a correlation of **chargeability highs** with elevated VMS prospectivity from soil analysis

ALS GoldSpot conducted anomaly pattern detection and matching from known mineralization on over 7,000-line km of EM data. Combined with further analysis of geochemical data, magnetics and bedrock mapping provided prospective targets for 2025 exploration and drilling

#### 2024 Exploration SUMMARY

#### **COMPLETED WORK**

Mapping, sampling & prospecting

- Over 750 samples taken
- Over **450 km** of ground traversed

Property-wide soil sampling program complete

- Over 6,000 samples taken
- Infill and extension grids completed

Follow-up on prospective AI hot spots with **boots-on-the-ground mapping and prospecting** 

#### CATALYSTS

Drilling ~3,000 m at KL West

Acquisition of Winnie Lake Property – Exploration and drilling summer 2025

Mapping, Sampling & Prospecting – Summer exploration program

## **KLDC TREASURE HUNT:** A JOURNEY TO DISCOVERY

**Behind-the-Scenes Access:** Follow our journey as we unearth hidden potential—capturing every step, from fieldwork to drilling, through dynamic updates.

Join the Hunt: Weekly or bi-weekly videos will immerse you in the treasure hunt, revealing the highs, lows, and key decisions behind our discoveries.

**Omniscient Storytelling:** Each update offers a complete narrative, breaking down why and how we make critical decisions along the way.

**Engaging and Transparent:** Bite-sized content designed to inform, disclose, and entertain—experience the thrill of the hunt with KLDC as we chase our big discovery!

#### **EXPERIENCED BOARD OF DIRECTORS**

#### Denis Laviolette

Non-Executive Chairman

Mr. Laviolette has over 15 years of experience in mining and capital markets; worked as a production and exploration geologist in Northern Ontario (Timmins, Kirkland Lake and Red Lake), Norway and Ghana. Later worked as a mining analyst with Pinetree Capital. Founder, Director and Executive Chairman of EarthLabs Inc. (formerly GoldSpot Discoveries Corp.) (TSX.V: SPOT); Co-Founder, Director and President of New Found Gold Corp. (TSX. V: NFG); and serves as a Director for Xtra-Gold Resources Corp. (TSE: XTG) and Radio Fuels Energy Corp. (CNSX: CAKE).

#### Gary Nassif

Mr. Nassif is a professional geologist with 30+ years' experience in gold, base-metal and diamond exploration in Canada, United States and sub-Saharan Africa. He is the former Senior Vice President of Jerritt Canyon Gold, previously privately owned by Sprott Mining Inc. and recently acquired by First Majestic Silver Corp. He is also President & CEO of Argentum Silver Corp., a TSX-V listed explorer, and a director of Inventus Mining. He was previously Manager of Exploration Services for Kerr Mines, Northern Gold Mining, and Trelawney Mining & Exploration prior to its sale to IAMGOLD for \$608 million in 2012.

#### Christina McCarthy

Ms. McCarthy is a geologist with over 15 years of experience in the resource capital markets. Ms. McCarthy is the former President and CEO of Paycore Minerals Inc., recently acquired by i-80 Gold Corp for \$90 million. She previously held the position of Vice President of Corporate Development for New Oroperu Resources Inc., which was acquired by Anacortes Mining Corp. in 2021. Ms. McCarthy served as Director of Corporate Development for McEwen Mining from 2014 to 2019. She

spent the past 15 years in various roles, including management and board roles, equity research at Euro Pacific, and Institutional Sales at Haywood Securities, as well as building an exempt market dealer focusing on resources.

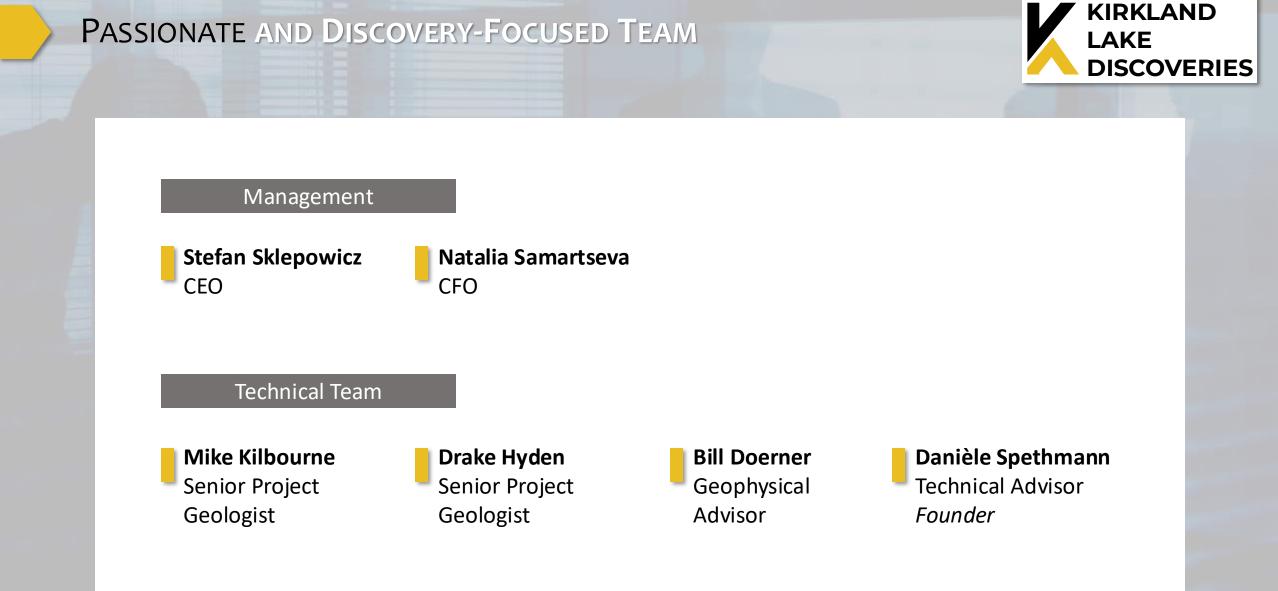

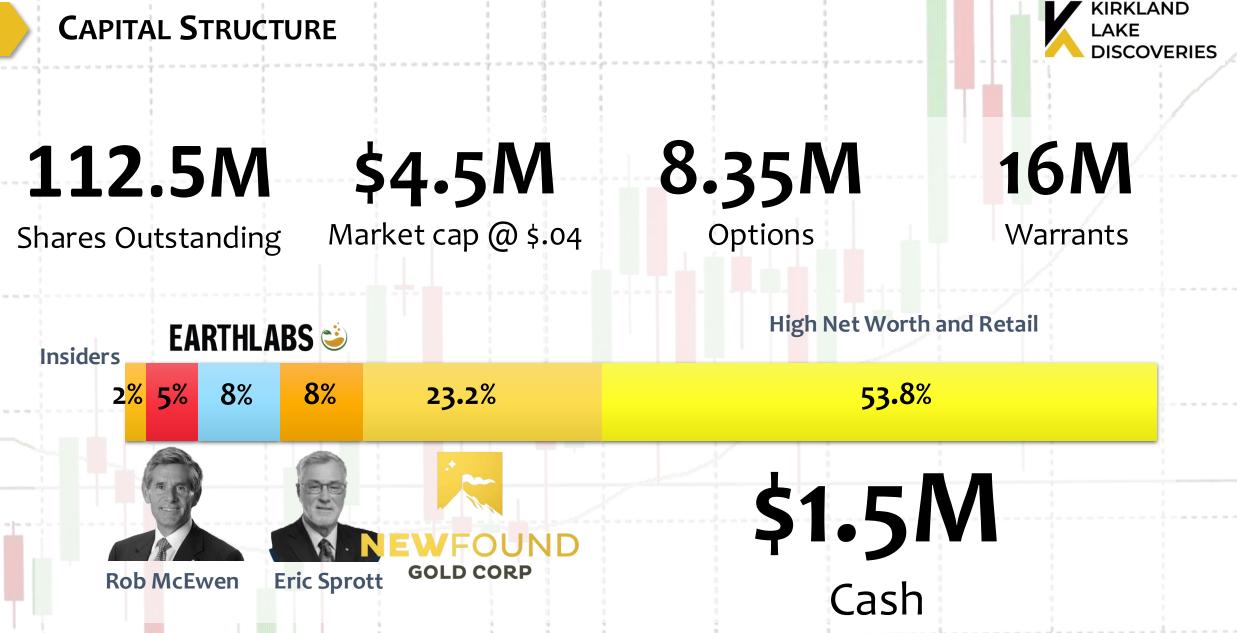

#### Vincent Dubé-Bourgeois

Vincent Dubé-Bourgeois is Co-Founder and President of EarthLabs Inc. and a board member at Harfang Exploration Inc. Under his leadership, EarthLabs sold the ExplorTech Division, including GoldSpot Discoveries, to ALS Limited for \$30 million. In 2015, at the Integra Gold Rush Challenge, Mr. Dubé-Bourgeois combined his machine learning and geology expertise to lead his team successfully to a share of the \$1 million prize. Mr. Dubé-Bourgeois was previously with the Ontario Geological Survey and Noront Resources Ltd. He holds a BSc in Geology from the University of Ottawa and is recognized for innovative contributions to data science and geoscience, particularly in mineral exploration.

Capital Structure and Working Capital as of June 1, 2025
